Allowable Subject Matter

2. Claims 25-38 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reasons for the indication of the allowability of claims 25-38 are:

Regarding claims 25-38, the prior art does not teach or fairly suggest in combination with the other claimed limitations a conductive line comprising: one or more optical fibers extending through the inner diameter of the tubing, the one or more optical fibers having a helical pitch configuration inside the tubing sufficient to provide frictional hold-up force between the outer surface of the one or more optical fibers and the inner surface of the tubing for the one or more optical fibers to support its weight in the tubing and so that the one or more optical fibers have a length longer than the tubing in which the one or more optical fibers extend.

This limitation is found in claims 25-38, and is neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
